Sommario/riassunto	L'analyse rétrospective des cinq éditions de l'enquête Pratiques culturelles réalisées depuis le début des années 1970 met en lumière quelques grandes tendances d'évolution : l'augmentation massive de l'écoute de musique et la généralisation de la culture d'écrans, le recul

de la lecture d'imprimés, l'essor des pratiques artistiques en amateur et la hausse de la fréquentation des établissements culturels. Elle souligne l'ampleur du renouvellement des pratiques culturelles, la féminisation et le vieillissement des publics, mais elle vient aussi rappeler que les dynamiques générationnelles liées à la diversification de l'offre tant publique que privée et aux profondes mutations de la société française doivent souvent composer avec les pesanteurs qui entravent le processus de démocratisation. The retrospective analysis of the five editions of the Pratiques culturelles (Cultural Practices) survey conducted since the early 1970s has highlighted some major trends in the evolution of cultural practices, such as the huge increase in listening to music and the increasing prevalence of screen-based culture, the fall in reading of printed matter, the boom in amateur artistic practices and increased attendance of cultural establishments. It draws attention to the scale of renewed cultural practices, their feminisation and ageing audiences, whilst also reiterating that the generational forces linked both to the diversification of supply (both public and private) and to the profound transformations in French society often have to compromise with those forces hindering the process of democratisation.
