

1. Record Nr.	UNINA9910786633703321
Titolo	Sturkie's avian physiology // edited by Colin G. Scanes
Pubbl/distr/stampa	London, England : , : Academic Press, , 2015 ©2015
ISBN	0-12-407243-7
Edizione	[Sixth edition.]
Descrizione fisica	1 online resource (1055 p.)
Disciplina	571.18
Soggetti	Birds - Physiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part I. Undergirding themes -- Part II. Sensory biology and nervous system theme -- Part III. Organ systems theme -- Part IV. Metabolism theme -- Part V. Endocrine theme -- Part VI. Reproductive theme -- Part VII. Cross cutting themes.
Sommario/riassunto	Sturkie's Avian Physiology is the classic comprehensive single volume on the physiology of domestic as well as wild birds. The Sixth Edition is thoroughly revised and updated, and features several new chapters with entirely new content on such topics as migration, genomics and epigenetics. Chapters throughout have been greatly expanded due to the many recent advances in the field. The text also covers the physiology of flight, reproduction in both male and female birds, and the immunophysiology of birds. The Sixth Edition, like the earlier editions, is a must for anyone interested in avian physiology.
