## Sommario/riassunto

Related to the key areas of Pauli's and Jung's joint interests, the book covers overlapping issues from the perspectives of physics, philosophy, and psychology. Of primary significance are epistemological questions connected to issues such as realism, measurement, observation, consciousness, and the unconscious. The contributions assess the extensive material that we have about Pauli's and Jung's ideas today, with particular respect to concrete research questions and projects based on and re...
