to industrial economic effects -- Notes.

Sommario/riassunto

In a world facing chronic and increasing shortages in food crops and natural resources, visionary leadership in agriculture becomes more and more critical for building and maintaining a sustainable future. It is of paramount importance that the dynamic and challenging evolution in agriculture over the last century and a half be met today with imaginative leadership in virtually all aspects of activities and organizations involved. Leadership in Agriculture: Case Studies for a New Generation focuses on key characteristics and elements of leadership. Using case studies from
