

1. Record Nr.	UNINA9910786760103321
Autore	Jung Simon
Titolo	Die Hartz-Reformen und die Armutsentwicklung in Deutschland : Ursachen und Armutsbeeinflussende folgen Deutschlands umfangreichster Sozialreform // Simon Jung
Pubbl/distr/stampa	Hamburg, [Germany] : , : Diplomica Verlag, , 2014 ©2014
ISBN	3-8428-4308-9
Descrizione fisica	1 online resource (83 pages)
Disciplina	331.120420943
Soggetti	Manpower policy - Germany Labor market - Germany Poverty - Germany
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Die Hartz-Reformen und die Armutsentwicklung in Deutschland; Inhaltsverzeichnis; 1. Einleitung; 2. Armut; 2.1 Definitionen von Armut; 2.2 Herausforderungen für die Armutsforschung; 2.3 Geschichte des Armutsbegriffs; 2.4 Fazit; 3. Reformpaket: Moderne Dienstleistungen am Arbeitsmarkt; 3.1 Bestandsaufnahme vor den Reformen; 3.2 Mitwirkende der Gesetze für Moderne Dienstleistungen am Arbeitsmarkt; 3.3 Die 13-Innovationsmodule; 3.4 Stufenplan der Reformen für Moderne Dienstleistungen am Arbeitsmarkt; 3.5 Fazit 4. Verbindungen zwischen den Reformen für Moderne Dienstleistungen am Arbeitsmarkt und der Armutsentwicklung 4.1 Vorbedingungen; 4.2 Dritter Armuts- und Reichtumsbericht der Bundesregierung 2008; 4.3 Zentrale Armutsentwicklungen seit den Reformen für Moderne Dienstleistungen am Arbeitsmarkt; 5. Fazit; 6. Abkürzungsverzeichnis; 7. Abbildungsverzeichnis; 8. Literaturverzeichnis
Sommario/riassunto	Mit den Hartz-Reformen wurden die umfangreichsten Änderungen im arbeitsmarktpolitischen und sozialen Bereich seit dem Bestehen der Bundesrepublik Deutschland (BRD) vorgenommen. Ein großer Teil der Bevölkerung ist von den Folgen der Gesetze direkt oder indirekt betroffen. Als Verknüpfungspunkt zwischen den Hartz-Reformen und

dem Begriff der Armut kann exemplarisch die anhaltende Diskussion um die Hartz-IV-Regelsetze aufgegriffen werden. Diese wurden bereits mehrmals aufgrund ihrer angezweifelten Existenzsicherungsfunktion vor dem Bundesverfassungsgericht verhandelt und im Februar des Jahres 200

2. Record Nr.	UNINA9910810194403321
Autore	Wick Mark R. <1952->
Titolo	Neoplastic mimics in dermatopathology // Mark R. Wick, M.D., James W. Patterson, M.D
Pubbl/distr/stampa	New York : , : Demos Medical Publishing, , 2013
ISBN	1-61705-176-4
Descrizione fisica	1 online resource (xi, 194 pages) : color illustrations
Collana	Pathology of neoplastic mimics series
Altri autori (Persone)	Patterson James W <1946-> (James Willis)
Disciplina	616.5
Soggetti	Skin - Diseases - Diagnosis Skin - Pathophysiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Title; Copyright; Dedication; Contents; Preface; Acknowledgment; Chapter 1: Neoplastic Mimics: Overview; Philosophical and Practical Issues; Topographic Distribution and Biologic Nature of "Pseudotumors"; Idiopathic Pseudoneoplasms; Developmental Pseudoneoplasms; "Functional" Pseudoneoplasms; Iatrogenic Pseudoneoplasms; Infectious Pseudoneoplasms; Chapter 2: Pseudoneoplastic Mimics of Epithelial Tumors in the Skin; Pseudocarcinomatous (Pseudoepitheliomatous) Epidermal Hyperplasia; Pseudocarcinomatous Hyperplasia in Chronic Aseptic Dermatitis; Pseudocarcinomatous Hyperplasia in Association with Neoplasms; Pseudocarcinomatous Hyperplasia in Cutaneous Infections; Potential Mechanisms for Cutaneous Pseudocarcinomatous Hyperplasia; Pathologic Findings in Pseudocarcinomatous Hyperplasia and Differential Diagnosis with True Carcinomas; Epidermal Nevi and "Der Wulst"; Reactions to Monsel's Solution; Selected Bullous Dermatoses; Adnexal Nevi and other Pseudoneoplastic Appendageal Lesions; Sweat

Glandular Proliferations; Basaloid Follicular Hamartoma; Sebaceous Proliferations

Chapter 3: Imitators of Regressing and Regressed Melanocytic

NeoplasmsChapter 4: Pseudoneoplastic Mesenchymal Lesions;

Pseudoneoplastic Vascular Proliferations of the Skin;

Acroangioidermitis and Acral Capillary Angiomatosis; Pigmented

Purpura (Majocchi-Schamberg Disease); Proliferative Scars;

Intravascular Papillary Endothelial Hyperplasia (Masson's Lesion);

Angiokeratoma; Bacillary Angiomatosis; Telangiectasias;

Pseudosarcomatous Polyps; "Inflammatory Pseudotumors" of the Skin;

Proliferative Noninfectious Granulomatous Lesions; Other

Pseudoneoplastic Reactions to Infection

"Histoid" LeprosyNonlepomatous Mycobacterial Pseudotumors of the

Skin; Hamartomatous Mesenchymal Lesions of the Skin; Fibrous

Hamartoma; Smooth Muscle Hamartomas and "Becker's Nevi";

Rhabdomyomatous Mesenchymal Hamartomas; Idiosyncratic

Proliferative Mesenchymal Reactions to Injury; Nodular (Proliferative;

Pseudosarcomatous; Infiltrative) Fasciitis; Postoperative Spindle Cell

Nodules; Keloids; Ruptured and Proliferating Ganglion Cysts; Chapter 5:

Pseudoneoplastic Neurocutaneous Rests and Ectopias; Rudimentary

Meningocele (Meningotheliomatous Hamartoma)

Cutaneous Glial Heterotopia ("Nasal Glioma")Chapter 6:

Pseudoneoplastic Lymphoreticular Infiltrates of the Skin;

Pseudoneoplastic Lymphoreticular Infiltrates: An Overview;

Nonneoplastic Conditions Producing "Lichenoid" Infiltrates that

Simulate Cutaneous T-Celllymphoma; Other Nonneoplastic Lymphoid

Infiltrates that may Mimic Hematologic Lesions; Lupus Profundus and

"Cytophagic Panniculitis"; "Reactive Angioendotheliomatosis";

Cutaneous Cellular Responses to Hematopoietic Colony-Stimulating

Agents; Other Nonneoplastic CD30+ Cutaneous Eruptions; Kimura's

Disease

Plasma Cell Infiltrates of the Skin and Mucosae that can Imitate

Plasmacytomas

Sommario/riassunto

Virtually all sites in the human body can host lesions that simulate neoplasms, and many of these "pseudotumors" can simulate neoplasms on all levels of analysis-- clinical, radiologic, and pathologic-- thus they represent particular diagnostic pitfalls for the pathologist that can ultimately lead to therapeutic misdirection. This book provides the pathologist with detailed morphologic descriptions and diagnostic guidance in recognizing these neoplastic mimics as they occur in the skin. In addition, descriptions and diagnostic guidance are provided for the range of skin lesions that may mimi
