Designing a development programme

Sommario/riassunto

A comprehensive guide for business people, government administrators and specialists in management methodology, Methodological School of Management details the original and applied thinking, methods and approaches established by the school in the Soviet era and still operating successfully in modern Russia today. The Methodological School of Management is not an educational institution, but a range of management tools, which evolved as a part of the 'systems movement' during the second half of the twentieth century. The school was created by the pupils of Georgy Petrovich Shchedrovitsky (1
