

1. Record Nr.	UNINA9910786791203321
Autore	Kafai Yasmin B
Titolo	Connected code : why children need to learn programming // Yasmin B. Kafai and Quinn Burke
Pubbl/distr/stampa	Cambridge, Massachusetts : , : The MIT Press, , [2014] ©2014
ISBN	0-262-31925-X 0-262-31924-1
Descrizione fisica	1 online resource (200 p.)
Collana	The John D. and Catherine T. Macarthur foundation series on digital media and learning
Altri autori (Persone)	BurkeQuinn <1976->
Disciplina	004.083
Soggetti	Computers and children Computer programming - Study and teaching (Secondary) Scratch (Computer program language) Constructivism (Education)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; Series Foreword; Foreword; Acknowledgments; 1 The Comeback of Coding; 2 Connected Learning; 3 From Code to Applications; 4 From Tools to Communities; 5 From Scratch to Remix; 6 From Screens to Tangibles; 7 Connected Teaching; 8 Coding for All; Notes; References; Index
Sommario/riassunto	Why every child needs to learn to code: the shift from "computational thinking" to computational participation.
