

1. Record Nr.	UNINA9910786881503321
Autore	Deichmann Uwe
Titolo	Growing green : the economic benefits of climate action / / Uwe Deichmann and Fan Zhang
Pubbl/distr/stampa	Washington, DC : , : World Bank, , [2013]
ISBN	0-8213-9792-3
Descrizione fisica	1 online resource (pages cm)
Collana	Eastern Europe and Central Asia Reports
Disciplina	363.738/745
Soggetti	Environmental policy - Economic aspects - Europe Environmental policy - Economic aspects - Asia, Central Climatic changes - Economic aspects Climatic changes - Government policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. Priorities for a low-carbon transformation -- pt. 2. Promoting growth and ensuring social inclusion -- pt. 3. Sectoral priorities.
Sommario/riassunto	Pollution from fossil fuels and degraded natural lands are raising the earth's temperature. The evidence of the causes of global warming is clear, as are its consequences. The economic impacts of climate change are already apparent and they threaten development gains. Extreme weather events have brought severe droughts to Central Asia, heat waves and forest fires to Russia, and floods to Southeastern Europe. Unchecked emissions will come at rising economic cost and increasing risk to individuals. There is a clear case for all of the world's economies to move to a low-carbon growth path. Yet, cl
