Sommario/riassunto	The divergent and oftentimes contradictory state of Christianity in the modern world fuels questions about its place and future in the world: in politics, education, healthcare, and even in sport. This book brings together cutting edge research on the most recent changes and trends in Christianity worldwide. Contributors drawn from the USA, UK and

Europe, Africa and East Asia offer an invaluable breadth of coverage, expertise and disciplinary perspective at the intersections between sociology of religion, theology, politics, education and human geography.
