Sommario/riassunto	New Perspectives on the European Bildungsroman reflects the change in direction of research on the Bildungsroman, focusing on more psychological, authorial and feminist contents. Departing from the father of the prototype of the genre, Goethe, the authors trace imperative pathways to its French, British, and Italian counterparts, examining spiritual and female Bildungsromane. A wide-ranging analysis provides fresh insights into the genre through comparative

analyses of Bildungsromane both diatopically and diachronically, while critical analysis of novels such as Voltaire's Candide, Charlotte B

Sommario/riassunto

This book presents the proceedings of the 14th International SPIN workshop on Model Checking Software, held in Berlin, Germany. Fourteen full papers are presented, together with four tool presentation papers and the abstracts of two invited talks. The papers are organized into topical sections covering directed model checking, partial order reduction, program analysis, exploration advances, modeling and case studies, and tool demonstrations.
