communication; Problem; Approach; Local setting and relevant
changes; Lessons learnt; References

Sommario/riassunto

The Bulletin of the World Health Organization is an international journal
of public health with a special focus on developing countries. Since it
was first published in 1948 the Bulletin has become one of the world's
leading public health journals. As the flagship periodical of the World
Health Organization (WHO) the Bulletin draws on WHO experts as
editorial advisers reviewers and authors as well as on external
collaborators. In this month's issue: Human rabies in India: a problem
needing more attention; The lack of progress in reducing anaemia
among women: the inconvenient truth; Effect of b
