   Descrizione fisica   1 online resource (388 p.)

   Collana   Cognitive Linguistics Research, , 1861-4132 ; ; Volume 54

   Disciplina   415.018

   Soggetti   Construction grammar - Data processing
                              Cognitive grammar - Data processing

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Description based upon print version of record.

   Nota di bibliografia   Includes bibliographical references at the end of each chapters and
                              index.

   Nota di contenuto   Front matter -- Table of contents -- 1. Constructions all the way
                              everywhere: Four new directions in constructionist research / Boogaart,
                              Ronny / Colleman, Timothy / Rutten, Gijsbert -- I. Methodological
                              advances -- 2. A radically data-driven Construction Grammar:
                              Experiments with Dutch causative constructions / Levshina, Natalia /
                              Heylen, Kris -- 3. Automating construction work: Data-Oriented
                              Parsing and constructivist accounts of language acquisition /
                              Beekhuizen, Barend / Bod, Rens -- II. Construction morphology -- 4.
                              Affixoids and constructional idioms / Booij, Geert / Hüning, Matthias
                              -- 5. The survival and use of case morphology in Modern Dutch / Scott,
                              Alan K. -- III. Constructions in variation and change -- 6. Degeneracy:
                              The maintenance of constructional networks / Velde, Freek Van de --
                              7. Social and constructional diffusion: Relative clauses in seventeenth-
                              and eighteenth-century Dutch / Rutten, Gijsbert / Wal, Marijke van der
                              -- 8. The emergence of non-canonical degree modifiers in non-
                              standard varieties of Dutch: A constructionalization perspective /
                              Norde, Muriel / Clerck, Bernard De / Colleman, Timothy -- 9.
                              Conventional combinations in pockets of productivity: English

resultatives and Dutch ditransitives expressing excess / Cappelle, Bert -- IV. Constructions in interaction -- 10. Und mit der Party, wie wollen wir das organisieren? Tying constructions with the preposition mit in German talk-in-interaction / Bücker, Jörg -- 11. Appositions in monologue, increments in dialogue? On appositions and apposition-like patterns in spoken German and their status as constructions / Imo, Wolfgang -- 12. Constructions as resources in interaction: Syntactically unintegrated att 'that'-clauses in spoken Swedish / Wide, Camilla -- Index

| Sommario/riassunto | The field of constructionist linguistics is rapidly expanding, as research on a broad variety of language phenomena is increasingly informed by constructionist ideas about grammar. This volume is comprised of 11 original research articles representing several emerging new research directions in construction grammar, which, together, offer a rich picture of the various directions in which the field seems to be moving. |
