Sommario/riassunto

With a unique focus on exemplary, completed DNP capstone projects, this book delivers key information on designing, constructing, and completing a high quality capstone project. It demonstrates the impact that a well-conceived capstone project can have on facilitating change and addresses all program, administrative, policy, and clinical issues that DNP students may encounter during the capstone process. The book examines a variety of capstone projects from across the U.S.-- quality improvement projects, strategic plans, advocacy, clinical case narratives, and other innovations--that demonstrat
