Sommario/riassunto	As a celebration of Anne Thurston's contribution to the field of archives and records management, and public administration in the developing world, this excellent volume brings together scholars and practicing archivists to discuss the key issues around public records and good governance. Never before have these authors from the developing and developed world published together on the intersection of records and archives and development, a key to good governance. The book covers three broad areas - records management and training, governance and transparency and digital records management and
