Sommario/riassunto

"Following their first contact in 1519, accounts of Aztecs identifying Spaniards as gods proliferated. But what exactly did the Aztecs mean by a "god" (teotl), and how could human beings become gods or take on godlike properties? This sophisticated, interdisciplinary study analyzes three concepts that are foundational to Aztec religion--teotl (god), teixiptla (localized embodiment of a god), and tlaquimilolli (sacred bundles containing precious objects)--to shed new light on the Aztec understanding of how spiritual beings take on form and agency in the material world. In *The Fate of Earthly Things*, Molly Bassett draws on ethnographic fieldwork, linguistic analyses, visual culture, and ritual studies to explore what ritual practices such as human sacrifice and the manufacture of deity embodiments (including humans who became gods), material effigies, and sacred bundles meant to the Aztecs. She analyzes the Aztec belief that wearing the flayed skin of a sacrificial victim during a sacred rite could transform a priest into an embodiment of a god or goddess, as well as how figurines and sacred bundles could become localized embodiments of gods. Without arguing for unbroken continuity between the Aztecs and modern speakers of Nahuatl, Bassett also describes contemporary rituals in which indigenous Mexicans who preserve costumbres (traditions) incorporate totiotzin (gods) made from paper into their daily lives. This research allows us to understand a religious imagination that found life in death and believed that deity embodiments became animate through the ritual binding of blood, skin, and bone"--

Nota di contenuto	We're on our way, Lord! : the birth of biblical feminism, 1973-1975 -- All we're meant to be : the early years of biblical feminism, 1975-1983 -- Is the homosexual my neighbor? : the crisis in biblical feminism, 1984-1986 -- Empowered by the Word, I : theological changes in biblical feminism, 1986 -- Empowered by the Word, II : organizational changes in biblical feminism, 1986.
Sommario/riassunto	For most people, the terms "evangelical" and "feminism" are contradictory. "Evangelical" invokes images of conservative Christians known for their strict interpretation of the Bible, as well as their support of social conservatism and traditional gender roles. So how could an evangelical support feminism, a movement that seeks, at its most basic level, to redress the inequalities, injustice, and discrimination that women face because of their sex? Evangelical Feminism offers the first history of the evangelical feminist movement. It traces the emergence and theological development of biblical feminism within evangelical Christianity in the 1970's, how an internal split among members of the movement came about over the question of lesbianism, and what these developments reveal about conservative Protestantism and religion generally in contemporary America. Cochran shows that biblical feminists have been at the center of changes both within evangelicalism and in American culture more broadly by renegotiating the religious symbols which shape its deepest values.
