Mitchell -- Integrative approaches : expressive arts, narrative, and symbolism / Walter Breaux.
Sommario/riassunto	This student-friendly and well designed introductory text provides a thorough overview of 14 widely used theories. Experts examine each theory from the perspective of its historical background, major constructs, goals, cross-cultural considerations, and limitations. Traditional and brief interventions integrate theory with specific counseling strategies, giving students further insight into the

counseling process and guidance in developing their personal counseling style. A consistent case study across chapters reinforces the differences between theories and illustrates assessment of client c
