

1. Record Nr.	UNINA9910787299203321
Autore	Geach James
Titolo	Galaxy : mapping the cosmos // James Geach
Pubbl/distr/stampa	London : , : Reaktion Books, , 2014 ©2014
ISBN	1-78023-516-X 1-78023-396-5
Descrizione fisica	1 online resource (272 p.)
Disciplina	523.11
Soggetti	Galaxies Universe
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Galaxy: Mapping the Cosmos; Imprint Page; Contents; One: Cities Beyond; Two: Stepping into the Extragalactic Universe; Three: Seeing More; Four: The Evolution of Galaxies; Five: Models of the World; Distance Scale; Glossary; Bibliography; Acknowledgements; Photo Acknowledgements; Index
Sommario/riassunto	Each night, we are able to gaze up at the night sky and look at the thousands of stars that stretch to the end of our individual horizons. But the stars we see are only those that make up our own Milky Way galaxy-but one of hundreds of billions in the whole of the universe, each separated by inconceivably huge tracts of empty space. In this book, astronomer James Geach tells the rich stories of both the evolution of galaxies and our ability to observe them, offering a fascinating history of how we've come to realize humanity's tiny place in the vast universe. Taking us on a compelli
