Sommario/riassunto

This is the only text to present a comprehensive, developmental, and practical approach to preparing school counselors to conceptualize the career development needs of P-12 students, and design and implement relevant career interventions. The text reflects the American School Counseling Association's National Model for school counseling to facilitate career development and college readiness as a core competency. It is grounded in developmental, ecosystemic, and career theories as a basis for career interventions. Considering the range of psychosocial, cognitive, and academic development spanni
