Sommario/riassunto

What is the place of religion and religious convictions in government, politics, and in public life - taking into consideration the need to respect the free exercise of religion? Challenges to existing arrangements of church-state affairs come from many corners of domestic debates and international relations. Probably most spectacularly, it also stems from the vicinity of the religious freedom of less established (or less popular) holders of faith. The underlying difficulty of these debates is that at first sight they appear to tackle the issue of the plurality of any polity, not only in its r
