Sommario/riassunto	There is an invisible thread woven through a school that defines everything from dress codes to student success. It is the school culture, and reshaping it will yield highly visible improvements for teachers and students. Leslie Kaplan and William Owings show how to improve leadership, teaching, learning, confidence, and trust throughout the school. 'Culture Re-Boot' reframes school culture to include organisational learning, relational trust, accountability, programme improvement, and teacher effectiveness.
