Sommario/riassunto	This is the first study of the history of Diophantine analysis and the theory of numbers from Ab? K?mil to Fermat (9th-17th century). It thus offers an elaborate and detailed overview on a fundamental chapter on classical mathematical thought and its relation to algebra and Diophantus' Arithmetica.

Sommario/riassunto	Law enforcement agencies and their employees are continually at risk for potential liability related to torts, civil rights violations, and employment law issues. Litigation may involve suits by the public against officers and the administration, actions by the administration against officers, or actions by officers against the administration or members of the public they serve. Knowledge of these risks and understanding how they arise are essential to law enforcement officers, administrators, and their legal counsel.
