

1. Record Nr.	UNINA9910787575403321
Autore	Yang Chaowei
Titolo	Spatial cloud computing : a practical approach // Chaowei Yang, Qunying Huang
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , [2014] ©2014
ISBN	0-429-16788-1 1-4665-9316-4
Edizione	[1st edition]
Descrizione fisica	1 online resource (352 p.)
Classificazione	COM032000COM043000TEC036000
Disciplina	004.67/82 004.6782
Soggetti	Geospatial data Cloud computing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	part I. Introduction to cloud computing for geosciences -- part II. Deploying applications onto cloud services -- part III. Cloud-enabling geoscience projects -- part IV. Cloud computing status and readiness -- part V. Future directions.
Sommario/riassunto	A computing cloud is a set of network enabled services, providing scalable, inexpensive computing platforms on demand, which can be accessed in a simple way. This book helps its readers understand the process of how to deploy and customize geospatial applications onto clouds, as well as how to optimize clouds to make them better support geospatial applications. It also discusses and presents the strategies for customizing different types of applications to better utilize the cloud capabilities, such as on-demand services--
