Sommario/riassunto

The scale of maternal mortality and morbidity today is staggering. This book focuses on a vital part of a human rights response to maternal mortality, viz. accountability. Accountability encompasses monitoring, review and redress at the local, national and international levels. The book's context includes the UN Human Rights Council maternal mortality and morbidity resolutions, as well as Millennium Development Goal 5. It comes out of a roundtable conference held in Geneva during 2010 that examined maternal mortality, human rights and accountability and provided a forum where maternal health
