Sommario/riassunto	Despite their undeniable importance, the leaders of the Fascist and Nazi youth organizations have received little attention from historians. In <i>Shaping the New Man</i> , Alessio Ponzio uncovers the largely untold story of the training and education of these crucial protagonists of the Fascist and Nazi regime, and he examines more broadly the structures, ideologies, rhetoric, and aspirations of youth organizations in Fascist Italy and Nazi Germany. Ponzio shows how the Italian Fascists' pedagogical practices influenced the origin and evolution of the Hitler Youth. He dissects similarities and differences in the training processes

of the youth leaders of the Opera Nazionale Balilla, Gioventu Italiana del Littorio, and Hitlerjugend. And, he explores the transnational institutional interactions and mutual cooperation that flourished between Mussolini's and Hitler's youth organizations in the 1930's and 1940's. -- from back cover.

## Sommario/riassunto

This is a comprehensive guide to cervical cancer for nurses. It is a practically-based text for clinical nurses who wish to consolidate and update their knowledge of cervical cancer. It is concise, containing comprehensive information for general practice together with useful references to facilitate more in-depth study. Thus it provides an invaluable resource for both the registered nurse with a general interest in cervical cancer and for the nurse specialist working in primary health, gynaecology, oncology and palliative care. As well as containing the essential chapters about the pathoph
