

1. Record Nr.	UNINA9910787617803321
Titolo	Opportunities and obstacles in large-scale biomass utilization : the role of the chemical sciences and engineering communities : a workshop summary // Sheena Siddiqui, Douglas Friedman, and Joe Alper, rapporteurs ; Chemical Sciences Roundtable, Board on Chemical Sciences and Technology, Division on Earth and Life Studies, National Research Council of the National Academies
Pubbl/distr/stampa	Washington, District of Columbia : , : National Academies Press, , [2012] ©2012
ISBN	0-309-27867-8 0-309-27865-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (61 p.)
Disciplina	660
Soggetti	Motor fuels - United States Biomass energy - United States Fuel - Environmental aspects - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Matter; Preface; Acknowledgment of Reviewers; Contents; Acronyms; 1 Introduction and Overview; 2 Feedstocks and Conversion Technologies; 3 Fuels and Chemicals from Biomass via Biological Routes; 4 Fuels and Chemicals from Biomass via Thermochemical Routes; 5 Heat and Power Production from Biomass; 6 Final Thoughts; Appendixes; Appendix A: Statement of Task; Appendix B: Workshop Agenda; Appendix C: Biographies; Appendix D: Workshop Attendees; Appendix E: Origin of and Information on the Chemical Sciences Roundtable
Sommario/riassunto	"Based on a one-day public workshop held in Washington, DC, Opportunities and Obstacles in Large-Scale Biomass Utilization: The Role of the Chemical Sciences and Engineering Communities: A Workshop Summary explores the current state of biomass utilization for bulk-production of sustainable fuels and chemicals. The discussion

focused on the chemistry and chemical engineering opportunities to meet the aforementioned objectives. Both formal presentations and breakout working groups were components of the workshop in an effort to stimulate engaging discussion among participants from widely varying fields."--Publisher's description.
