Hard to Pull Off; Few Terrorists; Small Attacks Aren't Enough; Worst-Case Thinking Makes Us Nuts, Not Safe; Threat of "Cyberwar" Has Been Hugely Hyped; Cyberwar and the Future of Cyber Conflict; Why Terror Alert Codes Never Made Sense; Debate Club: An International Cyberwar Treaty Is the Only Way to Stem the Threat; Overreaction and Overly Specific Reactions to Rare Risks; Militarizing Cyberspace Will Do More Harm Than Good; Rhetoric of Cyber War Breeds Fear-and More Cyber War; Attacks from China; GhostNet; Profitable
The Boston Marathon Bombing: Keep Calm and Carry On

Sommario/riassunto

Up-to-the-minute observations from a world-famous security expert Bruce Schneier is known worldwide as the foremost authority and commentator on every security issue from cyber-terrorism to airport surveillance. This groundbreaking book features more than 160 commentaries on recent events including the Boston Marathon bombing, the NSA's ubiquitous surveillance programs, Chinese cyber-attacks, the privacy of cloud computing, and how to hack the Papal election. Timely as an Internet news report and always insightful, Schneier explains, debunks, and draws lessons from current events t
