Sommario/riassunto	A study of how doing field research submerged in a different culture impacts one's sense of identity. ""Wengle documents convincingly, and with a great deal of sensitivity to and empathy for his informants, what fieldworking ethnographers undergo while anthropologizing. . . . If one wants to understand what kind of data ethnographers generate, what kind of facts they notice, what kinds of events they record (rather than others that they could have generated, noticed or recorded, but did not) reading Wengle's book is indispensable. It goes a long way toward doing awa
