Sommario/riassunto

In this book, Jeffrey Kottler and Jon Carlson turn their well-polished therapy microscopes onto the subjects of lying, falsehood, deceit, and the loss of trust in the counseling room. What do clients lie about and why? When do therapists mislead or withhold information from their clients? What does it all mean? In their exploration of this taboo material, the authors interview and share stories from dozens of their peers from all practice areas and modalities and ranging from neophytes to established master practitioners. Their stories and reflections cast some light on this fascinating to

Sommario/riassunto

How is innovative architecture created? How can efficient synergies between planners and manufacturers be achieved? And how does an enterprise such as seele, with its proven high-level qualifications in the area of steel and glass, respond to planners' design ideas? These are just some of the questions answered in "*Innovative Design + Construction*", the new publication in the DETAIL development series. Using prestigious international projects as examples, the book explains the working philosophy and approach of the seele company, which stands for innovation in construction and customised solu
