Record Nr. UNINA9910787646303321 Autore Lu Shuai <1976-> Titolo Regularization theory for ill-posed problems: selected topics / / by Shuai Lu, Sergei V. Pereverzev Pubbl/distr/stampa Berlin; ; Boston:,: Walter de Gruyter,, [2013] ©2013 **ISBN** 3-11-028649-1 Descrizione fisica 1 online resource (304 p.) Collana Inverse and ill-posed problems series;; 58 Altri autori (Persone) PereverzevSergei V Disciplina 518/.53 Soggetti Numerical analysis - Improperly posed problems Numerical differentiation Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Description based upon print version of record. Includes bibliographical references and index. Nota di bibliografia Nota di contenuto Front matter -- Preface -- Contents -- Chapter 1. An introduction using classical examples -- Chapter 2. Basics of single parameter regularization schemes -- Chapter 3. Multiparameter regularization --Chapter 4. Regularization algorithms in learning theory -- Chapter 5. Meta-learning approach to regularization - case study: blood glucose prediction -- Bibliography -- Index This monograph is a valuable contribution to the highly topical and Sommario/riassunto extremely productive field of regularization methods for inverse and ill-posed problems. The author is an internationally outstanding and accepted mathematician in this field. In his book he offers a wellbalanced mixture of basic and innovative aspects. He demonstrates new, differentiated viewpoints, and important examples for applications. The book demonstrates the current developments in the field of regularization theory, such as multi parameter regularization and regularization in learning theory. The book is written for graduate

and PhDs
