Sommario/riassunto	In Strategy: A History, Sir Lawrence Freedman, one of the world's leading authorities on war and international politics, captures the vast history of strategic thinking, in a consistently engaging and insightful account of how strategy came to pervade every aspect of our lives. The range of Freedman's narrative is extraordinary, moving from the surprisingly advanced strategy practiced in primate groups, to the opposing strategies of Achilles and Odysseus in The Iliad, the strategic advice of Sun Tzu and Machiavelli, the great military innovations of Baron Henri de Jomini and Carl von Clausewit
