Sommario/riassunto

Information professionals are under constant stress. Libraries are ushering in sweeping changes that involve the closing of branches and reference desks, wholesale dumping of print, disappearing space, and employment of non-professional staff to fill what have traditionally been the roles of librarians. Increasing workloads, constant interruptions, ceaseless change, continual downsizing, budget cuts, repetitive work, and the pressures of public services have caused burnout in many information professionals. Managing Burnout in the Workplace concentrates on the problem of burnout, what i
