| Sommario/riassunto      | Hauptbeschreibung This survey investigates and evaluates the legal framework which an engineer faces when stepping into an ARGE partnership with other planning offices. ARGE, in the German  |

construction industry an established form of partnership, becomes more and more important in acquiring and accomplishing construction projects. The ARGE underlies the regulations of the German Partnership under Civil Law; consequently, the ARGE partners are jointly and individually liable for the contract. Thus the principal of the overall project enjoys fundamental advantages: He reduces his risk should it
