Sommario/riassunto	Contributions to this volume summarize and discuss the theoretical foundations of the Collaborative Research Centre at Leipzig University

which address the relationship between processes of (re-)spatialization on the one hand and the establishment and characteristics of spatial formats on the other hand. Under the global condition spatial formats are products of collective negotiations on the most effective and widely acceptable balance between the claim for sovereignty and the need for interconnectedness.

Sommario/riassunto	Black Stats?a comprehensive guide filled with contemporary facts and figures on African Americans?is an essential reference for anyone attempting to fathom the complex state of our nation. With fascinating and often surprising information on everything from incarceration rates, lending practices, and the arts to marriage, voting habits, and green jobs, the contextualized material in this book will better attune readers to telling trends while challenging commonly held, yet often misguided, perceptions. A compilation that at once highlights

measures of incredible progress
