

1. Record Nr.	UNINA9910787788403321
Autore	Bahadori Alireza
Titolo	Waste management in the chemical and petroleum industries / / Alireza Bahadori
Pubbl/distr/stampa	Chichester, West Sussex, United Kingdom : , : John Wiley & Sons Inc., , 2014
ISBN	1-118-73173-5 1-118-73174-3 1-118-73172-7
Descrizione fisica	1 online resource (349 p.)
Disciplina	628.5/1
Soggetti	Petroleum industry and trade - Waste disposal Chemical industry - Waste disposal Petroleum refineries - Waste disposal
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Waste-water treatment -- Physical unit operations -- Chemical treatment -- Biological treatment -- Wastewater treatment in unconventional oil and gas industries -- Wastewater sewer systems -- Sewage treatment -- Solid waste treatment and disposal -- Definitions, terminology.
Sommario/riassunto	The global chemical and petroleum industries have always had the challenge of disposing of chemical wastes, by-products, and residuals, but with traditional techniques such as deep well injection and incineration proving flawed, the need for disposal by legal, safe and economically effective means has never been greater. Increasingly, the need to produce without pollution is the preferred model for industry, and the strategy of waste minimization is seen as the best way forward. This is particularly relevant in the petrochemical and chemical industries, where large quantities of hazardous a
