Soggetti	Structural equation modeling
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Front Cover; Contents; Preface; Chapter 1: Introduction; Chapter 2: Generalized Structured Component Analysis; Chapter 3: Basic Extensions of Generalized Structured Component Analysis; Chapter 4: Fuzzy Clusterwise Generalized Structured Component Analysis; Chapter 5: Nonlinear Generalized Structured Component Analysis; Chapter 6: Generalized Structured Component Analysis with Latent Interactions; Chapter 7: Multilevel Generalized Structured Component Analysis; Chapter 8: Regularized Generalized Structured Component Analysis; Chapter 9: Lasso Generalized Structured Component Analysis; Chapter 10: Dynamic Generalized Structured Component Analysis; Chapter 11: Functional Generalized Structured Component Analysis; References; Back Cover
Sommario/riassunto	Developed by the authors, generalized structured component analysis is an alternative to two longstanding approaches to structural equation modeling: covariance structure analysis and partial least squares path modeling. Generalized structured component analysis allows researchers to evaluate the adequacy of a model as a whole, compare a

model to alternative specifications, and conduct complex analyses in a straightforward manner. Generalized Structured Component Analysis: A Component-Based Approach to Structural Equation Modeling provides a detailed account of this novel statistical methodolo

Sommario/riassunto

"An expose; on how the rise of China will affect the American way of life
The End of Cheap China is a fun, riveting, must-read book not only for people doing business in China but for anyone interested in understanding the forces that are changing the world. Many Americans know China for manufacturing cheap products, thanks largely to the country's vast supply of low-cost workers. But China is changing, and the glut of cheap labor that has made everyday low prices possible is drying up as the Chinese people seek not to make iPhones, but to buy them. Shaun Rein, Founder of the China Market Research Group, puts China's continuing transformation from producer to large-scale consumer - a process that is farther along than most economists think - under the microscope, examining eight megatrends that are catalyzing change in China and posing threats to Americans' consumption-driven way of life. Rein takes an engaging and informative approach to examining the extraordinary changes taking place across all levels of Chinese society, talking to everyone from Chinese billionaires and senior government officials to poor migrant workers and even prostitutes. He draws on personal stories and experiences from living in China since the 1990s as well as hard economic data. Each chapter focuses on a different aspect of China's transformation, from fast-improving Chinese companies to confident, optimistic Chinese women to the role of China's government, and at the end breaks down key lessons for readers to take away. The End of Cheap China shows: How rising labor and real estate costs are forcing manufacturers of cheap Chinese products to close, relocate, or move up the value stream How a restructuring economy moving away from exports to domestic consumption, and rising incomes will create opportunities for foreign brands to sell products in China rather than just producing there How Chinese consumption will build pressure on the global commodities markets, causing both inflation and friction with other nations How China's economic transformation spells the end of cheap consumption for Americans China's days as a low cost production center are numbered. The End of Cheap China exposes the end of America's consumerist way of life and gives clear advice on how companies can succeed in the new world order"--

But we are, after all, human beings" -- Trang: "I was prepared for any sacrifice or risk" -- Minh: "I led two lives" -- Le An: "The theme of our work in putting on plays was revolution" -- Sen: "We thought of ourselves as working for the people, not a particular party" -- Tuyen: "Everyone thought, if a certain event happens, all ills would be cured. Everyone was wrong." -- Lien An: "Through the education we got in the north, we understood what we had to do" -- Xuan: "There was so much hatred. We could not stay indifferent; something had to

be done" -- Oanh: "French are very nice in France, and very colonialist in the colonies.' Americans were exactly the same" -- Reuniting.

Sommario/riassunto

This text offers the narratives of a group of privileged women who were immersed in a French lycee and later rebelled and fought for independence, starting with France's occupation of Vietnam and continuing through US involvement and life after war ends in 1975. Tracing the lives of nine women, the book reveals these women's stories as they forsook safety and comfort to struggle for independence, and describes how they adapted to life in the jungle, whether facing bombing raids, malaria, deadly snakes, or other trials.
