Sommario/riassunto	This is the first full-length study of the history and working practices of the Mickery Theater in Amsterdam. Between 1965 and 1991, under its noted director Ritsaert ten Cate, Mickery became renowned worldwide for promoting and presenting significant international alternative theatre companies, and for staging its own innovative productions. Through a unique "archaeological" approach, combining archival research, oral history, and field observation, this book establishes the singular importance of Mickery and evokes the unique atmosphere of both the building and the activities it nurtured.

## Sommario/riassunto

Liberia's Civil War offers the most in-depth account available of one of the most baffling and intractable of Africa's conflicts. Adekeye Adebajo unravels the tangled web of the conflict by addressing four questions: Why did Nigeria intervene in Liberia and remain committed throughout the seven-year civil war? To what extent was ECOMOG's intervention shaped by Nigeria's hegemonic aspirations? What domestic, regional, and external factors prevented ECOMOG from achieving its objectives for so long? And what factors led eventually to the end of the war? In answering these questions--drawing on previously restricted ECOWAS and UN reports and numerous interviews with key actors--he sheds much-needed light on security issues in West Africa. The concluding chapter of the book assesses the continuing insecurity in Liberia under the repressive presidency of Charles Taylor and its destabilizing effect on the entire West Africa region.
