Sommario/riassunto	The Eucharist continues to be central to contemporary Christian religious tradition and to be the focus for a wide range of assumptions and disputes. Chief amongst these disputes is the role of women in the theology and the ritual of the Eucharist. Reinterpreting the Eucharist

brings together a diverse range of voices with each using their own marginalized experience to explore other ways - indigenous culture, medieval and contemporary art, social history, and environmental ethics - of engaging with the Eucharist. Presenting new forms of theological and ethical engagement, the book responds to the challenge of reconsidering the meaning of the Eucharist today.
