

1. Record Nr.	UNINA9910787960203321
Titolo	Ecology and conservation of North American sea ducks // edited by Jean-Pierre L. Savard, Environment Canada, Quebec City, QC, Canada; Dirk V. Derksen, U.S. Geological Survey, Anchorage, AK, USA; Dan Esler, U.S. Geological Survey, Anchorage, AK
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , [2015] ©2015
ISBN	0-429-16286-3 1-4822-4898-0
Descrizione fisica	1 online resource (604 p.)
Collana	Studies in Avian Biology ; ; Volume 46
Disciplina	598.4/1
Soggetti	Wildlife conservation - North America Sea ducks - Ecology - North America Sea ducks - Conservation - North America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Front Cover; Contents; Editors; CONTRIBUTORS; Foreword; Preface; Introduction; Chapter 1: Status and Trends of North American Sea Ducks : Reinforcing the Need for Better Monitoring; Chapter 2: Phylogenetics, Phylogeography, and Population Genetics of North American Sea Ducks (Tribe: Mergini); Chapter 3: Population Dynamics of Sea Ducks : USING Models to Understand the Causes, Consequences, Evolution, and Management of Variation in Life History Characteristics; Chapter 4: Infectious Diseases, Parasites, and Biological Toxins in Sea Ducks Chapter 5: Breeding Costs, Nutrient Reserves, and Cross-Seasonal Effects : Dealing with Deficits in Sea Ducks Chapter 6: Contaminants in Sea Ducks : Metals, Trace Elements, Petroleum, Organic Pollutants, and Radiation; Chapter 7: Foraging Behavior, Ecology, and Energetics of Sea Ducks; Chapter 8: Variation in Migration Strategies of North American Sea Ducks; Chapter 9: Remigial Molt of Sea Ducks; Chapter 10: Site Fidelity, Breeding Habitats, and the Reproductive Strategies of Sea Ducks; Chapter 11: Breeding Systems, Spacing Behavior, and

Reproductive Behavior of Sea Ducks

Chapter 12: Harvest of Sea Ducks in North America : A Contemporary

SummaryChapter 13: Habitats of North American Sea Ducks; Chapter

14: Conservation of North American Sea Ducks; Chapter 15:

Conclusions, Synthesis, and Future Directions : Understanding Sources of Population Change; Appendix A:North American Sea Ducks;

STUDIES IN AVIAN BIOLOGY; Back Cover

Sommario/riassunto

The past decade has seen a huge increase in the interest and attention directed toward sea ducks, the Mergini tribe. This has been inspired, in large part, by the conservation concerns associated with numerical declines in several sea duck species and populations, as well as a growing appreciation for their interesting ecological attributes.

Reflecting the considerable research recently conducted on this tribe, Ecology and Conservation of North American Sea Ducks examines the 15 extant species of sea ducks from North America. Chapters are organized conceptually to focus on, compare, and contrast
