Nota di bibliografia	Includes bibliographical references (p. [199]-206) and index.
Nota di contenuto	Market failure and welfare economics : a justification for intervention -- Evaluation and planning -- Controlling the density of development -- Zoning and conservation -- Green belts, growth controls, and urban growth boundaries -- Planning and the land market -- The division of the spoils : profits, planning, gain, premium seeking and taxation -- Impact fees -- The economic consequences of higher land values -- The macroeconomic effects of planning constraints -- Methods of planning -- Politics, public choice, and political economy.
Sommario/riassunto	The book's aim is to draw together the economics literature relating to planning and set it out systematically. It analyses the economics of land

use planning and the relationship between economics and planning and addresses questions like: What are the limits of land use planning and the extent of its objectives?; Is the aim aesthetic?; Is it efficiency?; Is it to ensure equity?; Or sustainability?; And if all of these aims, how should one be balanced against another?

Sommario/riassunto	Basil of Caesarea (c. 328-378) was the great father of Christian monasticism in eastern Anatolia, whose influence spread into all the Greek, Latin and Syriac speaking churches. Basil's counsels for ascetics in community are collected in his <i>Asketikon</i> . The earliest version, the <i>Small Asketikon</i> , did not survive in the Greek, but only in a Latin translation (<i>The Rule of Basil</i>), and in a Syriac translation (<i>The Questions of the Brothers</i>). Silvas presents the first ever edition of the entire Syriac translation, drawn from five manuscripts, the oldest from the late 5th century. The introductory study shows how the Syriac translator was himself a warm-hearted spiritual father who made his own authorial contributions to the <i>Questions of the Brothers</i> .
