Alternative Intellectual Trends in Tamil Nadu and their Possible Lessons  
for Knowledge-Making Practices outside Intellectual Power Centers  
Chapter 15 - How to Overcome "Oriental" Sociology? Authors

---

Sommario/riassunto

This volume presents perspectives on spatially construed knowledge systems and their struggle to interrelate. Western social sciences tend to be wrapped up in very specific, exclusionary discourses, and Northern and Southern knowledge systems are sidelined. Spatial Social Thought reimagines the social sciences as a place of encounter between all spatially bound, parochial knowledge systems.
