Conclusion: Quantity and Quality in Conflict Resolution

Sommario/riassunto

A collection of articles about the fateful issues of war and peace in the Middle East, especially the evasive brands of war - terrorism and incitement. Horrific words of incitement, followed by atrocious acts of terror, have occurred during the past few years. These have significantly eroded hope in the peace process that had been initiated by Sadat and Begin a quarter-century ago (1977). All efforts to duplicate that feat between Israel and Palestinians have ended in frustration so far, and it now seems that a tremendous amount of ground-work will have to be done before a new peace vent
