Vagus nerve stimulation and deep brain stimulation: implantable device-related neurostimulation for treatment-resistant mood disorders -- 13. Novel therapeutic targets for major depressive disorder -- 14. Novel therapeutic targets for bipolar disorder.

Sommario/riassunto	Treatment-resistant major depression and bipolar disorder are highly prevalent and disabling conditions associated with substantial morbidity and mortality. Providing a concise view of the current definitions, assessment and evidence-based management of such disorders, this resource reviews novel therapeutic targets, which may enhance the future therapeutic armamentarium of clinicians.
