

1. Record Nr.	UNINA9910788023303321
Autore	Castiglione Filippo <1969, >
Titolo	Immune system modelling and simulation // Filippo Castiglione, Institute for Applied Mathematics, National Research Council of Italy, Rome, Italy and Franco Celada, Department of Medicine, Division of Rheumatology, New York University School of
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , [2015] ©2015
ISBN	0-429-16951-5
Descrizione fisica	1 online resource (284 p.)
Disciplina	616.07/90285 616.0790285
Soggetti	Immunoinformatics Immunology - Computer simulation Research Computer simulation Digital computer simulation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"A Science Publishers Book."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Preface; Acknowledgments; Contents; 1: Immunology for Aliens; 2: Aliens for Immunology; 3: C-ImmSim Unveiled; 4: Benchmarks, aka Qualitative Model Validation; 5: Specific Applications; 6: One Last Word; 7: Bibliography; Colour Plate Section
Sommario/riassunto	Immunology for aliensLeo Szilard paradox: Grand Central TerminalNon-specific defenseLevels of evolution How is a trait selected if it was not needed?Luck or foresight?Blood brothers The members of the winning team are rewarded Somatic recombination produces diversity among equals The workshop of the adaptive response Repertoires A battalion of one Self-inflicted damage threatens survival Don't think, but reason and understandFull cover comes at a cost A bet, not a fantasy, about earliest happeningsThe cooperation of very different cells multiplies jobs that can be done Thymus deeds Hypothesis
