

1. Record Nr.	UNINA9910142531703321
Titolo	Econometric analysis of health data / / edited by Andrew M. Jones and Owen O'Donnell
Pubbl/distr/stampa	Chichester, West Sussex, England : , : John Wiley & Sons, Ltd, , 2002 ©2002
ISBN	1-280-55485-1 9786610554850 0-470-29897-9 0-470-84631-3
Descrizione fisica	1 online resource (247 p.)
Disciplina	338.4/33621 614.4015195
Soggetti	Medical statistics - Econometric models Medical economics - Econometric models Microeconomics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Econometric Analysis of Health Data; Dedication; Contents; List of Contributors; Preface; Introduction; I: Latent Variables and Selection Problems; 1 The demand for health: an empirical reformulation of the Grossman model; 2 Health, health care, and the environment: Econometric evidence from German micro data; 3 Subjective health measures and state-dependent reporting errors; 4 The effect of smoking on health using a sequential self-selection model; II: Count Data and Survival Analysis; 5 A comparison of alternative models of prescription drug utilization 6 Estimates of the use and costs of behavioural health care: a comparison of standard and finite mixture models 7 Latent class versus two-part models in the demand for physician services across the European Union; 8 Proportional treatment effects for count response panel data: effects of binary exercise on health care demand; 9

Estimating surgical volume-outcome relationships applying survival models: accounting for frailty and hospital fixed effects; III: Flexible and Semiparametric Estimators; 10 Individual cigarette consumption and addiction: a flexible limited dependent variable approach
11 Identifying demand for health resources using waiting times information12 Non- and semi-parametric estimation of age and time heterogeneity in repeated cross-sections: an application to self-reported morbidity and general practitioner utilization; IV: Classical and Simulation Methods for Panel Data; 13 Unobserved heterogeneity and censoring in the demand for health care; 14 A discrete random effects probit model with application to the demand for preventive care; 15 The use of long-term care services by the Dutch elderly
16 HMO selection and medical care costs: Bayesian MCMC estimation of a robust panel data probit model with survivalIndex

Sommario/riassunto

Given extensive use of individual level data in Health Economics, it has become increasingly important to understand the microeconometric techniques available to applied researchers. The purpose of this book is to give readers convenient access to a collection of recent contributions that contain innovative applications of microeconometric methods to data on health and health care. Contributions are selected from papers presented at the European Workshops on Econometrics and Health Economics and published in Health Economics. Topics covered include:

* Latent Variables* Unobservab

2. Record Nr.	UNINA9910788049003321
Titolo	Feminisms and ruralities / / edited by Barbara Pini, Berit Brandth, and Jo Little
Pubbl/distr/stampa	Lanham : , : Lexington Books, , [2015] ©2015
ISBN	1-4985-0885-5 0-7391-8822-4
Descrizione fisica	1 online resource (251 p.)
Disciplina	305.42
Soggetti	Feminism Rural women - Social conditions Sociology, Rural
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; 1 Introduction; Part I: The Feminist Movement and Rural Women; 2 Putting the Community First; 3 A Rural Woman's Impact on Canadian Feminist Practice and Theory; 4 Feminism in Rural Finland; 5 Paradoxes of a Women's Organization in the Forestry Industry; 6 Gender Mainstreaming or Strategic Essentialism?; 7 Feminist Connections in and beyond the Rural; 8 The Feminist and the Cowboy; Part II: Feminist Perspectives of Rurality; 9 The Development of Feminist Perspectives in Rural Gender Studies; 10 Finding "Room to Maneuver"; 11 The Gendered Ma(i)ze of Globalization 12 Reflections on a Feminist Care Approach to Rural Fisheries 13 Rural Queer Theory; 14 Girls' Studies in the Rural; 15 Memory Work and Reflexive Gendered Bodies; 16 Conclusion; References; Index; About the Contributors
Sommario/riassunto	This book aims to question, recalibrate and expand the field of rural social science by attending to the current debates in rural studies and feminist studies and by identifying possibilities for taking a rural view of feminisms and a feminist view of ruralities.
