Sommario/riassunto

Delivers the collective wisdom of foremost scholars and practitioners in the death and dying movement from its inception to the present. Written by luminaries who have shaped the field, this capstone book distills the collective wisdom of foremost scholars and practitioners who together have nearly a millennium of experience in the death and dying movement. The book bears witness to the evolution of the movement and presents the insights of its pioneers, eyewitnesses, and major contributors past and present. Its chapters address contemporary intellectual, institutional, and practice development
