Descrizione fisica	1 online resource (313 pages) : illustrations
Disciplina	370.72
Soggetti	Education - Research - Methodology Qualitative research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	<p>Illustrating the techniques of qualitative research to help readers learn to read, analyze, and design studies themselves. Taking a well-rounded and practical look at qualitative educational research, this book focuses on the diverse ways that qualitative researchers design their studies, and illustrates the wide range of techniques with myriad examples. Each example within a category of qualitative research--ethnography, grounded theory, phenomenology, case study, action research, narrative, and mixed methods--is accompanied by commentary from the editor regarding the particular approach used. The text concludes with an "Issues and Concepts" section that addresses issues that are at the forefront of this rapidly changing field. Key Features: Distinguishes among major qualitative research approaches to help readers connect qualitative methods with completed research studies; Shows students how to read, analyze, and design their own qualitative research studies; Covers current issues in qualitative educational research, High-Quality Ancillaries. An open-access student study site at provides access to articles.
