Sommario/riassunto

Breaking new ground in the understanding of sexuality's complex relationship to colonialism, this book illuminates the attempts at regulating prostitution in colonial Nigeria. As Saheed Aderinto shows, British colonizers saw prostitution as an African form of sexual primitivity and a problem to be solved as part of imperialism's 'civilizing mission'. He details the Nigerian response to imported sexuality laws and the contradictory ways both African and British reformers advocated for prohibition or regulation of prostitution.
