Sommario/riassunto	What determines the currency to which countries peg or "anchor" their exchange rate? Data for over 100 countries between 1980 and 1998 reveal that trade network externalities are a key determinant. This implies that anchor currency choice may well be suboptimal in that certain currencies, e.g., the U.S. dollar, could be oversubscribed. It also implies that changes in anchor choices by a small number of countries can have large and rapid effects on the international monetary system. Other factors found to be related to anchor choice include the symmetry of output shocks and the currency denomination of liabilities.

3. Record Nr.	UNINA9910785672003321
Titolo	Dreams and visions : an interdisciplinary enquiry / / edited by Nancy van Deusen
Pubbl/distr/stampa	Leiden ; ; Boston : , : Brill, , 2010

Crossley -- A vision of dwarfs / Joanna Woods-Marsden -- The Dawes Act of 1887 : a dream of "civilizing the savages" that became a nightmare for Native Americans / Robert W. Hanning.

Sommario/riassunto

Dreams and Visions have constituted an important topic and point of departure in the past; but also continue to play a present role in literature, political thought, economic theory, and in the arts. An essential historical topos, Dreams and Visions --the second in a series that projects past issues into the present--brings significant contributions from an interdisciplinary spectrum of standpoints in order to discover fresh insights. Perhaps this is the essence, in any case, of 'Vision'--to discover new, fresh ways of conceptualizing a problem, topic, or historical enquiry, which is the goal of this volume. Contributors are Tamara Albertini, David Bevington, Eolene M. Boyd-MacMillan, John N. Crossley, J. Harold Ellens, Wendy Furman-Adams, Robert W. Hanning, Virginia K. Henderson, Birgitta Lindros Wohl, Ann R. Meyer, Ana M. Montero, Michael Murrin, Wendy Petersen Boring, Conrad Rudolph, Nancy Van Deusen, Joanna Woods-Marsden, and Meg Worley.
