## Sommario/riassunto

This book brings together a series of contributions to the study of grammaticalization of tense, aspect, and modality from a functional perspective. All contributions share the aim to uncover the functional motivations behind the processes of grammaticalization under discussion, but they do so from different points of view.

Sommario/riassunto	What road did Americans travel to reach global preeminence? Taking the long historical view, Hunt demonstrates that wealth, confidence, and leadership were key elements to America's ascent. In an analytic narrative that illuminates the past rather than indulges in political triumphalism, he provides crucial insights into the country's problematic place in the world today. Hunt examines how the United States remade great power relations, fashioned limits for the third world, and shaped our current international economic and cultural

order. He concludes by addressing current issues, such as how
