

1. Record Nr.	UNINA9910788443703321
Titolo	Green building technologies and materials : selected, peer reviewed papers from the 2011 International Conference on Green Building Technologies and Materials (GBTM 2011), May 30, 2011, Brussels, Belgium // edited by Xingkuan Wu and Hao Xie
Pubbl/distr/stampa	Durnten-Zurich, Switzerland : , : Trans Tech, , [2011] ©2011
ISBN	3-03813-594-1 1-61344-701-9
Descrizione fisica	1 online resource (275 p.)
Collana	Advanced materials research, , 1022-6680 ; ; volume 224
Altri autori (Persone)	WuXingkuan XieHao
Disciplina	720.47
Soggetti	Building materials Green products Sustainable buildings
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Green Building Technologies and Materials; Organizing Committee and Preface; Table of Contents; Factors Influencing Bonding Strength of Geopolymer-Aggregate Interfacial Transition Zone; A Text Mining Analysis of the Fly Ash Research Trend (2000-2010); Discussion on Guidance Space and Mediation Space Environment Design in Cinema; Application of Non-Structural Fuzzy Decision Method in Selection of Partners; Gas Diffusivity in Fractal - Characterized Porous Materials; Appropriate Sustainable House Design for China's Countryside Transformation of Traditional Industrial Regions into Campus in Sustainable WayEcological Agriculture Technology in Urban Agriculture; Test and Research of Solar Water Heating System on High-Rise Residences; Wind Design Practice for High-Rise Residential Districts in Liaoning Coastal Cities; The Study of Method Preparing Golden Yellow Melted Glass and its Optical Performance; The Mode Study on Digital Network Technology and Interior Design; Morphology and Electrical Characteristics of (PEO)10LiClO ₄ Electrolyte with Nanosized CeO ₂

Properties of Flexible Fiber and Rigid Fiber Reinforced Cement Concrete Used on Surface Layer of Wharf PavementEnergy-Efficient Land-Saving and Low-Carbon Art of Dwelling Environment - Research from the Underneath Type Earth Cave Dwelling in Bai She Village, San Yuan County of Shaanxi Province; The Regeneration and Sustainability Development Study on Traditional Residential Building in Qinba Mountain Regions; Wood in Architecture: Rediscover the Material of Our Time; Research on the Reaction Condition and Process of Microcapsules via In Situ Polymerization

Research on New Technology of Energy Efficient Buildings and Utilization of Renewable Energy SourcesPreliminary Exploration of the Appropriate Technologies of Ecovillage in Germany - Taking Bramwich Ecovillage in Hamburg as an Example; Smart and Cool Home in Malaysia; Cooltek House in Malaysia; Applying Modular Greening Technology in Living Walls of Shanghai Expo; Air Permeability of Concrete by Thenoz Method; The Research on the Sustainable Development of Chinese Rural Cultural Architecture; Long Age Mechanical Properties and Application of Self-Compacting Concrete Analysis on the Optimal Subsidy Strategy of Government in Green Supply ChainMulticriteria Evaluation of the Selection of Green Glazing Material by Using the Analytic Hierarchy Process (AHP); Research on Evaluation System of Green Building in China; Research on Construction for Sustainable Housing Based on the Whole Life Cycle; Continuum Method and Effect Analysis of Energy Dissipation System for High-Rise Shear-Wall Structure; A Study on the Luminance of Landscape Lighting of Chinese Classical Architectures Based on Mesopic Vision

Discussion on Humidity Environment Passive Adjustment Methods in Hot Summer and Cold Winter Zone

Sommario/riassunto

A major goal of this special collection of 47 peer-reviewed papers was to gather together the current knowledge of academic scientists, engineers and industrial researchers and have them share their experiences and research results concerning every aspect of green building technologies and materials, and discuss the practical challenges encountered and the solutions adopted. An interesting guide to this increasingly relevant subject. Review from Book News Inc.: The 47 papers selected for the May 2011 conference are primarily written by Chinese academics and reflect China's ongoing efforts to i
